| Magic Dragon

Perched atop a sleek console, Lladro's intricate porcelain dragon finds balance in front of a spartan contemporary painting by Iowa artist Larry Zox. (lladro.com)

Radiant Jewel Box

Designer Inson Wood chose Year of the Dragon as the inspiration for his gem of a room in NYC's Holiday House benefiting the Susan G. Komen Foundation. The lacquered walls set the stage for Wood's take on 18th-century chinoiserie. The valances reminiscent of Chinese pagodas add an exotic touch to the grandly scaled windows.

| Pillow Talk

Custom-made pillows from Donghia's "Tea Time" silk fabric (at left) and "Modern Art" cut velvet (at right) add texture and whimsy. (donghia.com)

| The Royal Treatment

Wood took advantage of the overscaled windows with layered draperies, including Christopher Hyland's red "King Trade" silk fabric. (212/688-6121)

| If These Walls Could Talk

With its luscious lacquer finish, Benjamin Moore's "Moroccan Red" paint (benjaminmoore.com) is a sultry exclamation point to the room.
